

Become a Qualified Project Management Professional

In an increasingly chaotic global economy, companies and businesses are turning to project management to structure change, support continuous improvement and consistently deliver business results.

Learn the theories, tools, techniques and terminology of project management and then how to put them into practice. Gain both qualifications together.

APM Project Management Qualification (PMQ) (Theory)

Apply for Chartered Project Manager Status on completion

EAL Diploma in Project Management SCQF8 (Practice)

Gain Postnominals MAPM & professional membership of APM

Our new Project Management programme for 2024/25 will be led and delivered by Neil Harkin. Neil has over 20 years' experience in the field of project management, training & development and end-user engagement for major technology driven change projects. In Neils previous role he developed and delivered Project Management & Project Controls training and ECITB Project Controls courses. Neil holds a portfolio of project management qualifications including APM PPQ , APMG PRINCE2 Practitioner and APMG Project Planning & Control Practitioner.

Become a Qualified Project Management Professional
